Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The corrected or substitute drawings were received on December 29, 2003. These drawings are formal and acceptable.

Specification

2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the limitation “said pier is free from pile sleeves or integrated sleeve support structures” in lines 2-3 lack antecedent basis in the specification.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1: The limitation, “wherein said pier is free from pile sleeves or integrated sleeve support structures with primary re-enforcing elements composed

Art Unit: 3673

of dispersed steel fibers" in lines 2-4 renders the claim indefinite because it is not clear as to whether the pile sleeves or integrated sleeve structures with primary...steel fibers are relating to the claimed structure or not. It lacks the structural relationships each other.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 as understood, is rejected under 35 U.S.C. 102(b) as being anticipated by Gagliano (US 5,039,256).

Gagliano discloses pinned foundation system comprising a selectively shaped cementitious pier (see Fig. 3) with openings dimensioned and positioned to support plural driven piles (11) wherein the pier is free from pile sleeves (2) before they are assembled with a tension plate (3) (see Figs. 1-5; col.3, lines 51-68; col.4, lines 1-63).

7. Claim 1 as understood, is rejected under 35 U.S.C. 102(b) as being anticipated by Johnson (US 2,826,281).

Johnson discloses supports for vertical column comprising a selectively shaped cementitious pier (F) with openings dimensioned and positioned to support plural driven

Art Unit: 3673

piles (20) via a post (10) wherein the pier is free from pile sleeves (18) (see Figs. 1-5; col.1, lines 67-72; col.2, lines 1-59).

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other references cited disclose an integrated precast footings, a fence post with anchor and a structure load transfer system.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jong-Suk (James) Lee whose telephone number is (703) 308-6777. The examiner can normally be reached on 6:30 am to 3:00 pm, Monday thru Friday.
